Business Inroads

Prestigious AI & ML based Sensor Data Analytics Project for the Indian Navy

ACS has many decades of Trusted Relationship with Indian Defence. We are happy to announce that we bagged a prestigious contract for development of a software for the Indian Navy.

The work involves implementation of Artificial Intelligence and Machine Learning techniques on Big Data for deriving actionable intelligence. This paves the future path for our expert team to undertake many more such works on Military Multi Sensor Data Fusion and Analytics to keep our Armed Forces on the Cutting Edge of Situational Awareness and Intelligence.

Indian Navy Places More Orders: Data Centre & PAN India Secure Content System

Bagged an order to the tune of 12cr from Mahindra Defence towards commissioning of networking infrastructure for the new Naval unit in Vishakhapatnam

Few more orders are expected to be received from both Mahindra and other Defence units

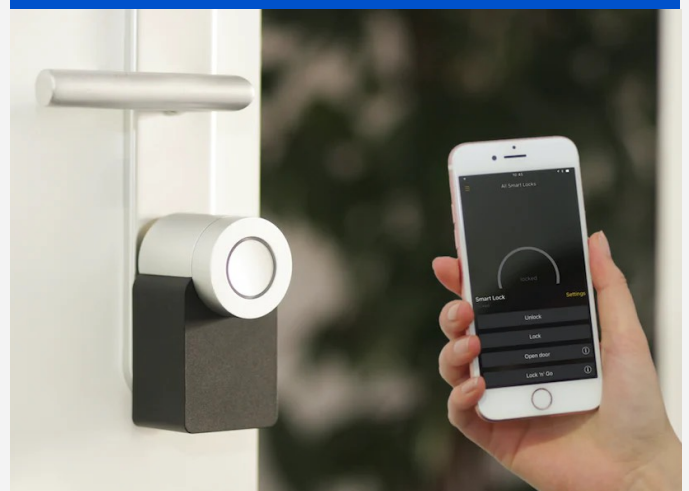

Strategic Investments

- **Investment in an Established IOT Company**

ACS has strategically invested in a leading IoT company to enhance its product offerings and expand its market presence.

- **Land Acquisition for future growth**

Acquired a 5.4 acre land in Medak district with a future plan to put up IoT Manufacturing facility.

Listing Status

We have acquired BSE listed entity namely LN Industries India Ltd. from NCLT by the end of March 2023.

We have completed the merger process of ACS Technologies Ltd. with LN Industries & changed the name of LN Industries as ACS Technologies Ltd. post merger.

We have completed filing of all the statutory compliances in ROC in respect of the merger and engaged a merchant banker to complete the listing formalities of the merged entity in BSE.

We will be filing the application in BSE for listing by the 15th of October.

Team Updates
